

Starting at cones draw & engage T1 – T3 with 3 shots each while moving to barricade. At barricade engage T4, T5 ,T6 and T7 with 3 shots each.

SETUP NOTES: Place T1-T3 so bullets will impact berm. Place T4 &T5 so No-Shoot partially obscures targets and by “cutting the pie” T4 is shot first then T5. As you continue to “cut the pie” T6 will be seen and T7 to be place directly behind barricade. A low target may be used for T7 for bullet impact reasons. Cones can be a start line. Force shooter to use cover at all times. Use 15-20 feet to baricade and no more thn 10 ft. to targets T4,5, & 6.
