

2 GUN SHOOT

Concealment Required

8 Rounds Pistol 22 Rounds Rifle

SCORED VICKERS

Shooter starts seated with handgun loaded and holstered. Rifle is UNLOADED leaning against upturned range table. ALL AMMO must be carried on shooter. You are holding the trip rope for the swinger.

At buzzer shooter pulls trip rope to start swinger moving and draws handgun and engages in TACTICAL ORDER all paper with 2 rounds. Handgun must have slide locked back and be empty before moving to rifle.

Shooter then moves to table picks up rifle loads it and engages each paper with 2 rounds and steel with 1 round utilizing cover in any order.

Shooter moves to barricade and on the way engages the 2 paper targets that are exposed to him before reaching the barricade. At barricade utilizing cover again shooter engages each paper with 2 rounds and steel with 1 round.

SET-UP NOTES

Set chair close to cement and set table and barricade progressively further downrange to force shooter to be moving downrange at all times. Rifle paper should be set at various heights from behind table and barricade only. Use upturned range table and shooter may shoot between cut out.

Paper targets turned upside down stapled to sticks can be used for the cover on the swinger. Set swinger so it can only be shot from right side of cover so targets may have to be arranged properly to do this. Make sure all bullets impact berm. Look for shoot thru's.

Paper for pistol and rifle should be set close to shooter to allow quick scoring. Rifle targets that are shot on the move should be set low so bullets impact berm.
